

Greetings NCD!

It's the most wonderful time of the year! When our crews can finally get outdoors and start in on lake and stream surveys, open water trawls, larval fish assessments, dives, fish rearing, kids fishing events, and all the other great tasks that makes our jobs fun!

Don't forget to share your fieldwork with fellow NCD members on our Facebook page- each week we make a "Fieldwork Friday" post to encourage the membership to share what they are up to each week out in the field. The NCD represents an amazingly wide variety of not only angling opportunities, but research opportunities in each of our states and providences- often times we get caught up in our own work and forget about all the amazing things that our colleagues do. This post is an opportunity for those of us who enjoy social media to brag a little bit about the cool stuff that represents our areas of expertise- so feel free to join in and show us what you are up to!

Enjoy your field season!

Heather

April |ey-pruh 4| n. Derived from the Latin aperire meaning "to open".

May |mey| n. A gift you get only once a year to enjoy.
