April 2021

Spring has sprung

As I write this in early April from central Ohio, the birds are singing, the grass is green, and the temperature is on its way to the mid-70s. Importantly, the agency for which I work has produced the majority of the Walleye and saugeye that we will and have collected muskie broodstock. We have crews in the field. It almost feels like a normal spring.

And with that normal spring, we have North Central Division business to complete! Many chapters have had their annual business meetings and conferences (most held remotely). With these activities, chapters typically elect new officers. A *very* important part of electing new officers is to inform the Division and the American Fisheries Society headquarters that contacts for chapters have changed. You can let the Division know by emailing Drew Holloway, Division Secretary-Treasurer, and me. We will update all of our roster spreadsheets. Please let the Society know by completing the Change of Officer form.

Contact Drew here: dholloway@msdeng.com

Find the AFS Change of Officer form here: <https://fisheries.org/about/units/change-of-officer-form/>

Thanks for keeping your chapter's information up-to-date!

To contact me, feel free to send an email at joseph.conroy@dnr.ohio.gov
